

Providing a secure and sustainable solution for end-of-life workwear, textiles and PPE

Sustainability

- Zero to landfill
- Every 1kg of textiles processed saves 4.5kg of CO₂
- Every 1kg of textiles processed saves 1,000 litres of water
- Helps towards ISO 14001 achievement and retention

Security

- Garments destroyed to an unrecognisable state
- Certificate of destruction issued for every collection
- All staff are BS7858 vetted
- Compliant with BS EN 15713-2009 code of practice
- ISO 9001 accredited

How it works

1. Place your end-of-life textile materials in the unit supplied
2. Knights collects as scheduled
3. Materials are securely destroyed for brand protection and best recycling processes are followed
4. Fibres are then recycled or reused
